- Add your logo.
- 600 mask per box.

About Sateen Fabric

Sateen finish fabric allows fabric to last longer and block dust. Sateen Fabric, because of the mercerizing process, resist mildew, also making them a good choice for anyone suffering from allergies. Sateen Sheets drape well and also have a high thread count due to the cotton fibers used. Sateen fabric, like Egyptian cotton sheets, are breathable and suitable for daily use for its soft touch. Our mask is washable up to 20-30 washes if it is gently taken care of.
